KRION es una empresa del Grupo Porcelanosa que diseña, produce y comercializa superficie sólida de nueva generación en forma de planchas, semielaborados de Krion®, adhesivos y aparatos de baño.

A través de un constante compromiso de mejora e innovación dispone de un excelente equipo e instalaciones de I+D+i que buscan siempre mejorar la calidad del producto final, aportando nuevas propiedades y características a las ya existentes, convirtiendo el material en uno de los más avanzados, resistentes y duraderos del mercado actual.

Con el respaldo del Grupo Porcelanosa y con una impresionante red logística y de distribución alrededor del mundo, KRION se ha consolidado como un referente internacional en proyectos de primer nivel en distintos países. La calidad de nuestro equipo humano y materiales y el compromiso con la naturaleza se erigen como banderas que marcan el rumbo de la empresa para garantizar un futuro sostenible y mejorar la calidad de vida de la sociedad.

El compromiso y la responsabilidad con la naturaleza son uno de los puntos clave de nuestro crecimiento y, al igual que con nuestro producto, nos involucramos para obtener, optimizar y mejorar todas las propiedades que ayuden a la sostenibilidad del entorno y a la búsqueda de una mejora de la calidad de vida de la sociedad, a través de acciones concretas y tangibles que reduzcan el impacto de la producción sobre el medio ambiente.

Nos encontramos en constante evolución intentando encontrar la perfección tanto en la elaboración de nuestro producto como en el trato hacia el prójimo. La innovación y el alto rendimiento solo se convierten en éxito si nuestra reputación es acorde a estos principios y nuestros clientes, proveedores y socios comerciales asocian a nuestro nombre confianza y compromiso; nuestras interacciones y acciones diarias son clave para el éxito de la empresa.

Krion is a company of the Porcelanosa Group that designs, produces and markets new generation solid surfaces as sheets, semi-finished products from Krion®, adhesives and bathroom devices.

Through constant commitment to improvement and innovation, it has an excellent R+D+i team and facilities who always seek to improve the quality of the end product, bringing in new properties and features to existing ones, converting the material into one of the most advanced, resistant and hard-wearing on the current market.

With the backing of the Porcelanosa Group and an impressive logistics and distribution network around the world, Krion has established itself as an international benchmark in first level projects in several countries. The quality of our human team, our materials and our commitment to nature stand like flags marking the course the company takes to guarantee a sustainable future and improve the quality of life of the wider community.

Our commitment and responsibility to nature is one of the key factors in our growth and, as with our product, we are involved in obtaining, optimizing and improving all the properties that support environmental sustainability and the search for an improvement in the quality of life of society, through concrete and tangible actions that reduce the impact of production on the environment.

We are constantly evolving, trying to find perfection both in the development of our product and in the treatment of our fellow man. Innovation and high performance can only be turned into success if our reputation is in line with these principles and if our customers, suppliers and business partners associate our name with confidence and commitment; our interactions and everyday actions are key to the success of the company.

CONCIENCIA SOSTENIBLE SUSTAINABLE AWARENESS

El uso de recursos de manera inconsciente está provocando efectos nocivos e irreversibles en el medio ambiente. Por ello, siempre manteniendo la estética y la funcionalidad como características elementales, apostamos por crear materiales que minimicen el consumo de recursos y sean respetuosos con el medio ambiente. Basamos nuestra conciencia ambiental en un sistema racional, por el cual creamos materiales duraderos, que empleen en su composición recursos de origen mineral abundantes en el planeta y materiales procedentes de fuentes recicladas. Así, ofrecemos a la sociedad productos con un elevado ciclo de vida que se ve potenciado con la posibilidad de reciclarlos, y que no tienen efectos nocivos para el planeta. Queremos ser una pieza más de la cadena que promueva la economía circular.

The reckless use of resources is having harmful, irreversible effects on the environment. Therefore, while maintaining aesthetics and functionality as essential features, we are committed to creating materials which minimise the consumption of resources and which are environmentally friendly. We base our environmental awareness on a rational system through which we create long-lasting materials whose composition uses resources of mineral origin which are abundant on the planet, and materials from recycled sources. Thus, we offer society products with a long life cycle which increase the possibility of recycling, as they do not have harmful effects on the planet. We wish to be another link in the chain promoting the circular economy.

Sustainable I+D+i:

ecocycle® EAST EPUAR EPUPR

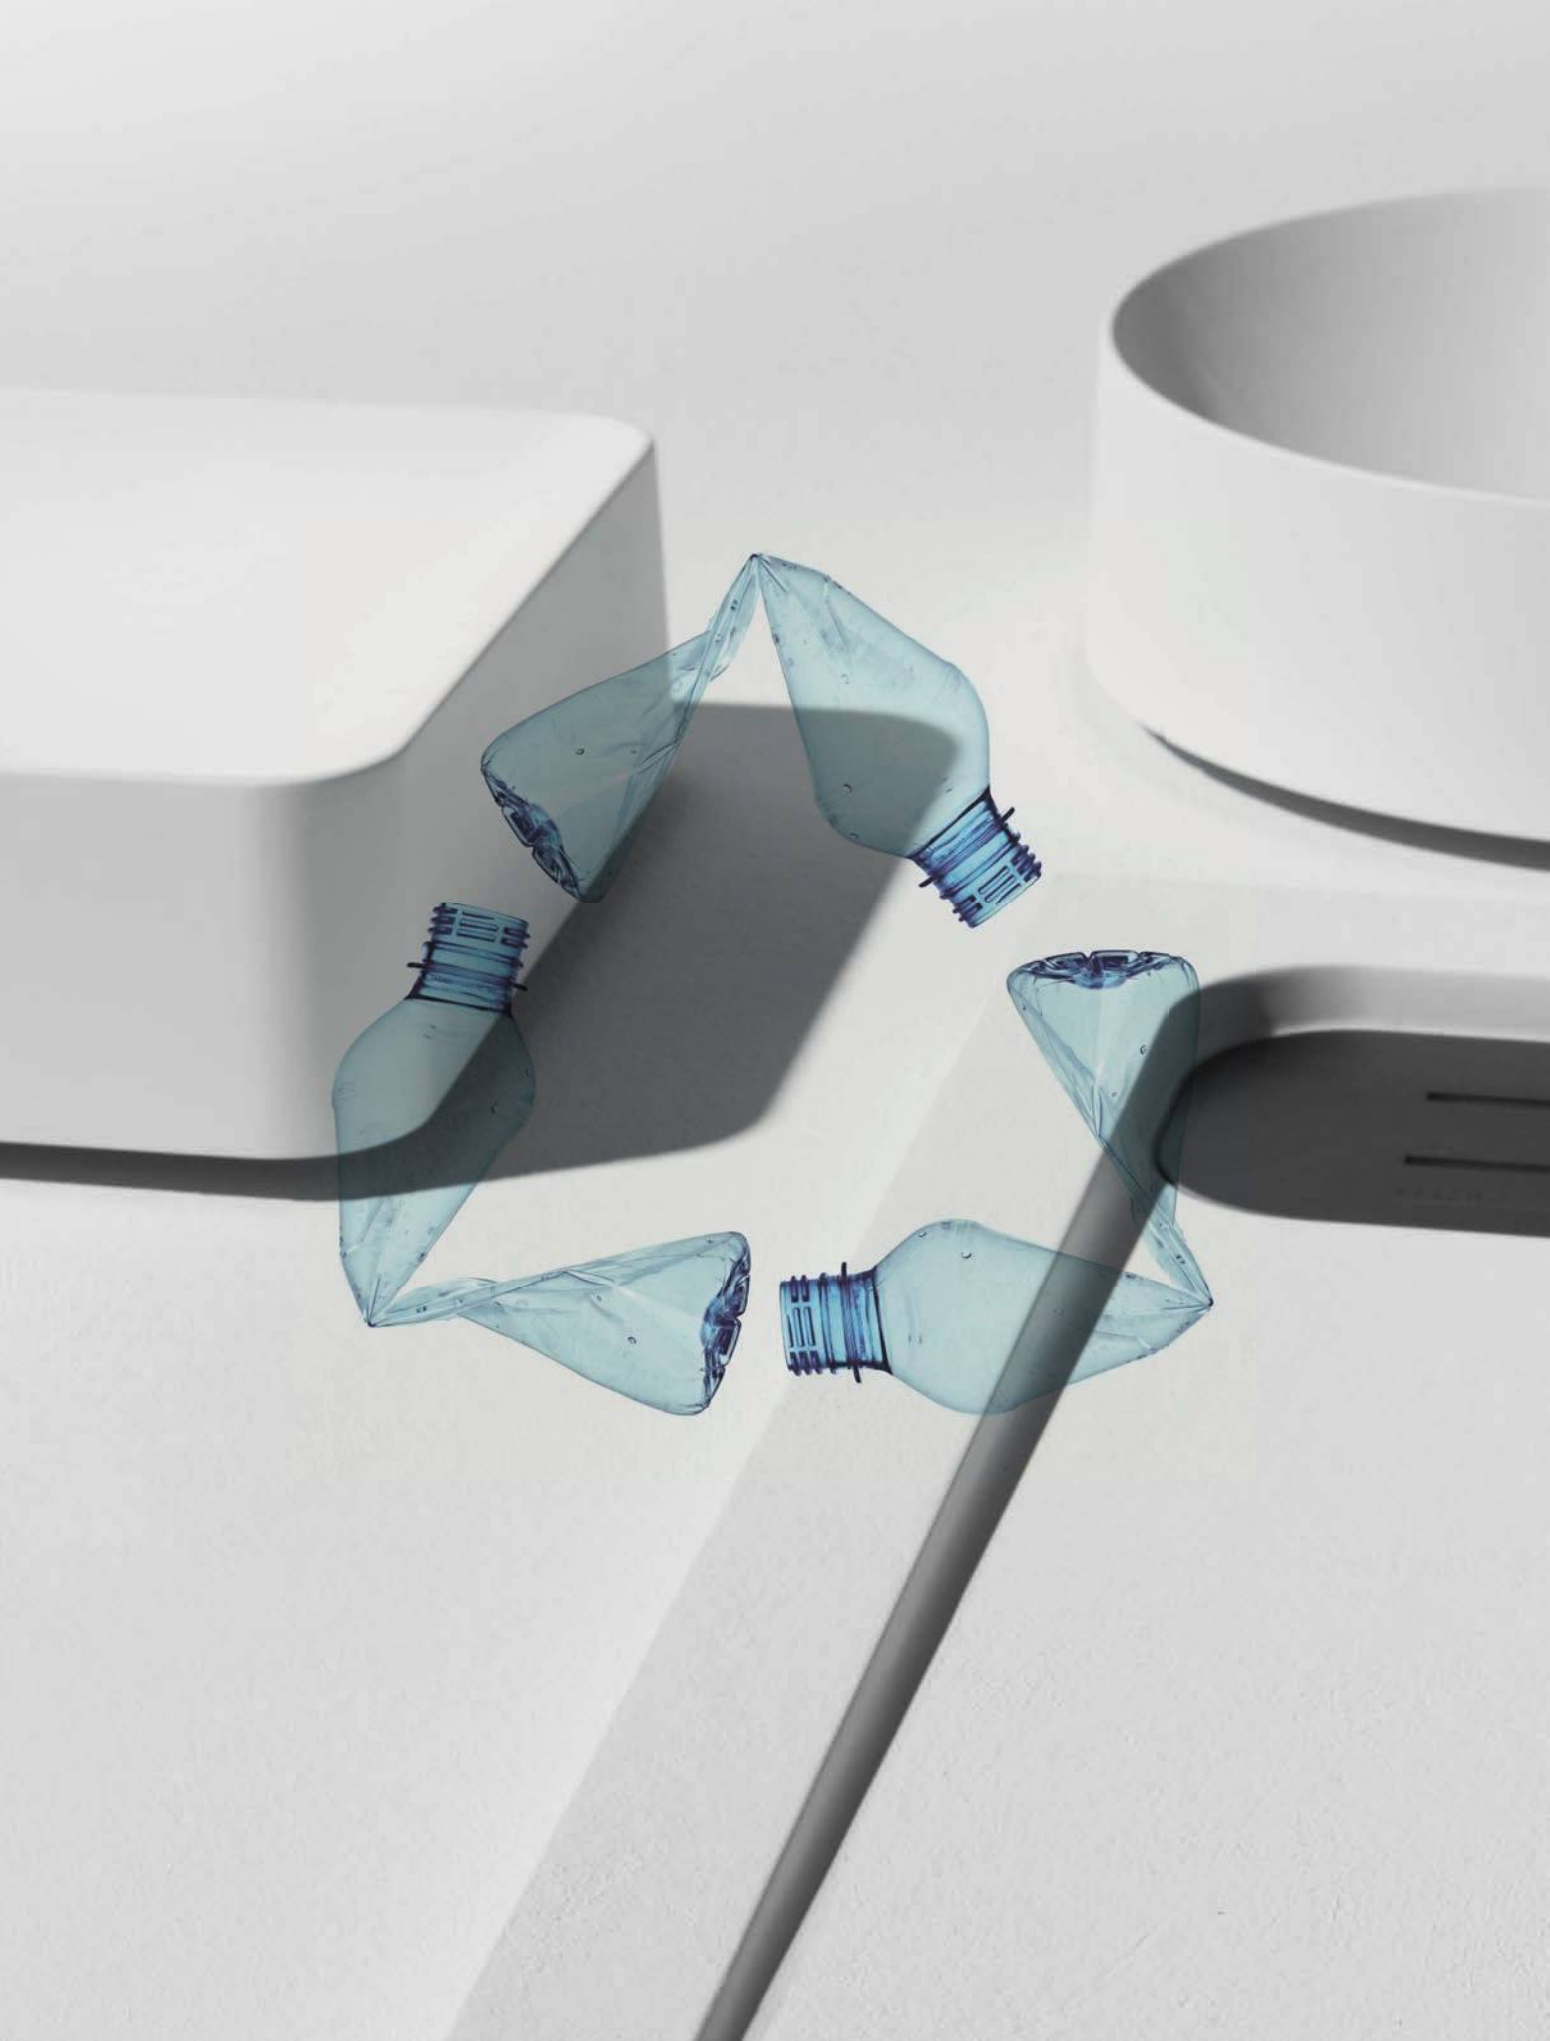

KRION SHELL®

SUSTAINABLE SANITARIES

Fruto de la apuesta por desarrollar materiales y productos sostenibles y duraderos, que fomenten la economía circular, ha nacido Krion Shell®, un material que fusiona sostenibilidad, funcionalidad y diseño.

Arising from the commitment to developing sustainable, durable materials and products which promote the circular economy, Krion Shell® has been created, a material which combines sustainability, functionality and design.

KRION SHELL®

Krion Shell® es un Engineered Mineral Composite desarrollado internamente por Krion, compuesto de dos partes. Un cuerpo estructural formado por minerales unidos con Eco Resina, y una capa externa sólida y homogénea compuesta de trihidrato de alúmina y pigmento.

Krion Shell® is an Engineered Mineral Composite developed in-house by Krion. It consists of two parts: a structural inner core, made primarily of minerals (dolomite) with an eco-friendly resin binder, and a solid uniform outer surface made of mineral materials (ATH) and resins.

Capa externa · Outer layer

Capa interna · Inner core

12

3/4 MINERAL · 3/4 MINERALS

La mayor parte del cuerpo base de Krion Shell® está formado por minerales, dolomitas, abundantes en la tierra.

Most of the inner core of Krion Shell® is made of minerals (dolomite) found in abundance on the planet.

Utiliza hasta un 5% de residuos del plástico en su composición total

At least 5% waste plastic is used in its total composition

1/4 ECO RESINA · 1/4 ECO-FRIENDLY RESINS

Para unir los minerales se utiliza una Eco Resina formada a partir de desperdicios provenientes del plástico. Con el uso de PET reciclado se da una nueva vida a los desechos, apostando por una economía circular para la creación de Krion Shell®.

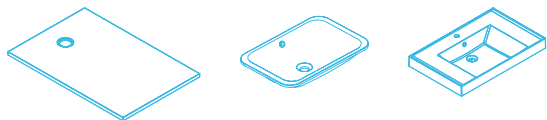

To bind the minerals, an eco-friendly resin is used, made of waste plastic. By using recycled PET plastics, waste materials are given a new life and a circular economy is promoted in the creation of Krion Shell®, minimizing the consumption of the planet's resources.

13

Krion Shell se utiliza para la fabricación de **platos de ducha, lavabos y encimeras de baño.**

Krion Shell is used for made **shower trays, washbasins and bathroom countertops.**

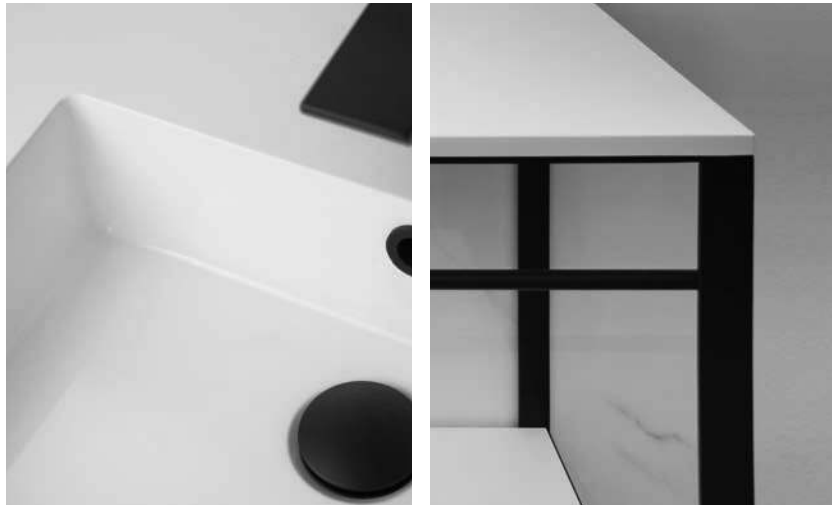

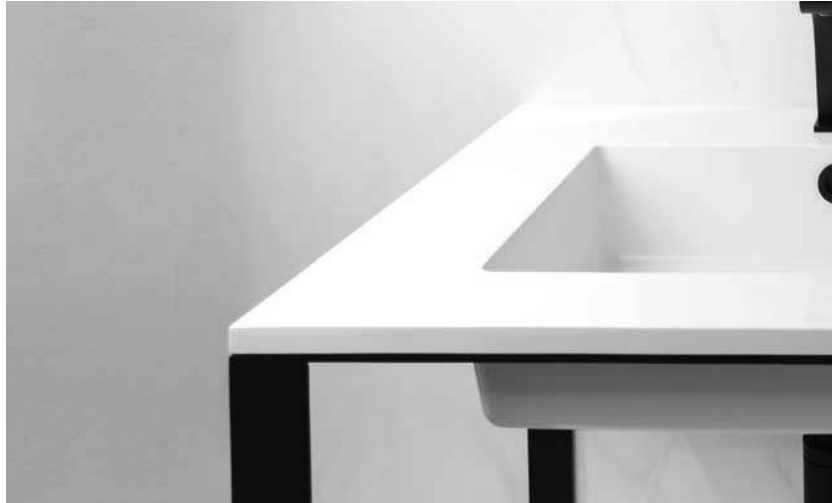

SPIRIT

Encimera con lavabo integrado de aire minimalista realizada con la tecnología de Krion Shell® que garantizan una excelente calidad y durabilidad.

La serie se completa con una estructura en acabado negro y un estante en madera lacada blanca.

Minimalist style countertop with integrated washbasin, with Krion Shell® technology, guaranteeing excellent quality and durability.

The series is completed with a structure in a black finish and a white lacquered wood shelf.

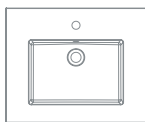

ENCIMERA · WORKTOP

SPIRIT

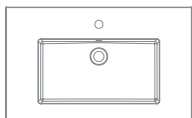

Krion presenta una gama de encimera en, 61 cm, 80cm con lavabo a la derecha, 80cm con lavabo a la izquierda, 80cm con lavabo centrado y 120 cm, esta última con doble seno. El espesor de tan solo 15 mm lo que ofrece una sensación liviana. Podemos encontrar todos estos formatos en color blanco y acabados brillo y mate. Además esta serie es compatible con los muebles de las series SMART, ONE y WAVE.

Krion presents a countertop range in formats of 61cm, 80cm with washbasin on the right, 80cm with washbasin on the left, 80cm with centred washbasin, and 120cm with two washbasins. NATURAL

La serie Natural es todo un placer para el tacto ya que es la primera serie de encimeras con lavabo integrado que dispone de textura Rock sobre toda su superficie, siendo el interior de los senos una textura lisa.

La serie Natural consta de un amplio programa de encimeras disponibles en diferentes formatos y faldones que se integran con los muebles para equipar y personalizar el baño.

The Natural series is a pleasure to the touch, as it is the first series of countertops with an integrated washbasin which has a Rock texture on its whole surface, the interior of the basins having a smooth texture.

The Natural series has a wide range of countertops, available in different formats and front coverings which integrate with the units to furnish and personalise the bathroom.

ENCIMERA · WORKTOP

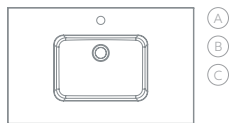

NATURAL

Las encimeras Natural han sido realizadas en Krypton Shell® con la tecnología de In Mold Connection que aseguran un extra de resistencia al impacto. Se pueden encontrar en 80, 110, 120 y 150 disponibles en 3 versiones de faldón, de 30 milímetros de altura, de 120 milímetros y de 120 milímetros con toallero incorporado. Las versiones de 120 milímetros son autoportantes.

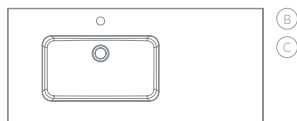

Disponible en dos colores, un blanco clásico ultra luminoso que llenará de luz nuestro baño y en un negro grafito que dará un toque de clase a nuestra estancia.

The Natural countertops have been made from Krypton Shell® with In Mould Connection technology, ensuring extra impact resistance. They can be found in 80, 110, 120 and 150cm, available in three front covering versions of 30 millimetres, 120 millimetres and 120 millimetres high with an incorporated towel rail. The 120 millimetre versions are self-supporting.

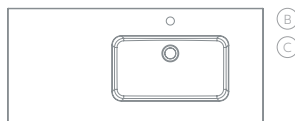

Available in two colours: ultra-bright classic white, which will fill our bathroom with light; and graphite black, which will give the room a touch of class.

MAMPARA DE DUCHA · ENCLOSURE

OPTIMA

Nueva familia de mamparas con diseño minimalista que va de suelo a techo. Con cristal templado de seguridad de de 8 ó 10 mm de espesor, con tratamiento fácil limpieza (System-Glass) aplicado en el mismo.

Diferentes acabados en perfiles (brillo y negro) y en cristales (transparente, mate, gris, espejo, bronce o con serigrafía a gusto del cliente)

Mampara con una gran versatilidad para cubrir cualquier tipo de hueco gracias a sus diferentes modelos (fijos, puertas, parabanes o fijo+puerta) y un altura máxima de 2500 mm. Al tratarse de una mampara enmarcada, le otorga una gran resistencia y robustez al conjunto.

New series of screens with a minimalist design that reaches from floor to ceiling. With 8 mm or 10 mm thickness tempered safety glass, with easy to clean treatment (System-Glass) applied to it.

Different finishes in profiles (gloss and black) and in glass (transparent, matt, grey, mirror, bronze or with customised serigraphy to suit the client),

Shower screen with a great versatility to cover any type of space thanks to its different models (fixed, doors, paraband or fixed+door) and a maximum height of 2500 mm. Being a framed screen, it provides great resistance and robustness to the assembly.
