A diagram illustrating the application of adhesive. A tube of adhesive is shown applying a bead of glue to the back of a panel. A circular inset provides a magnified view of the adhesive being applied to the back of the panel, which is being held by a wooden block.

A technical line drawing of a bathtub with a sliding door. The bathtub is shown from a three-quarter perspective. The sliding door is partially open, revealing the interior of the tub. Arrows on the door indicate its sliding motion. The bathtub is mounted on a flat surface, and the drawing is labeled 'B' in the bottom right corner.
